Career Objective:

Improve software quality, meet customer expectations and reduce defects by supporting proven software quality practices and implementing practical and effective process improvement methods.

Work Experience:

Currently working as **Specialist** – **Quality Engineering** in LTIMINDTREE, Bangalore from April 2021 till date.

Technical skills / Overview:

- Front end Automation Tools : Selenium WebDriver, ROBOT, TestNG, Playwright
- **TOSCA is a model-based test automation tool** developed by **Tricentis**. Certificate
- FE Automation Framework : Hybrid, Data driven
- Design pattern : Page Object Model (POM)
- BDD Framework : Cucumber BDD
- Reporting Tool : Extent Report, Surefire report.
- Backend Automation : Postman, Java Apache HTTP Client, Swagger, Rest Assured API
- Programming Lang. : Java, TypeScript & Python
- Query Language : SQL, PL SQL.
- Version Control : **Git**, GitHub, **Bit bucket**, GitLab
- CI/CD : **Jenkins**
- Container Technology : Docker
- Build Tool : **Maven**
- IDE : IntelliJ, Eclipse
- Defect tracking tool : Confluence(Doc), JIRA, SNOW, Mantis, Test Rail, TMS, BAMBOO
- Database : MySQL, Mongo DB
- Test Methodology : **Agile Methodology**
- Operating Systems : Windows, Mack OS, Linux
- Testing Knowledge : **Web application automation**, API Testing, DB Testing, Mobile Application testing, Manual Testing, **Functional Testing**, Smoke Testing, **Regression Testing** and Exploratory Testing.

Professional Summary: -

10+ years of experience in **Automation**/Manual Web Application Testing, Mobile Application Testing, Segment testing for network connection, mobile Testing in Retail, Insurance & Health Care Domain.

- ✓ Working as a test specialist having good knowledge of Automation testing, **Selenium using TestNG**, and various testing framework and tools

- ✓ Expertise in Web Application testing, mobile applications (.apk) using developed in .net, angular technologies and Windows & Mac OS. Expertise in Black Box testing, defect tracking using Mantis & JIRA and basic knowledge on SQL.
- ✓ Proficient in STLC, SDLC processes, Regression testing, Smoke Testing, Functional, Usability and System testing
- ✓ Experience in handling end-to-end testing responsibilities of a project individually.
- ✓ Experience in designing, developing, and maintaining a robust API automation framework using Rest Assured, TestNG/JUnit, and Maven/Gradle.
- ✓ Expertise in implementing core design patterns, such as the Builder Pattern for constructing complex Request Specification objects and the Page Object Model (POM)/Factory Pattern for managing API endpoints and service methods (Service Layer Automation).
- ✓ Proven ability to implement Data-Driven Testing (DDT) by integrating the framework with external sources like Excel, JSON, or databases to ensure maximum test coverage with minimal code.
- ✓ Chained/Dependent Rest APIs: API chaining, where data (like a token or ID) is extracted from one response (e.g., POST /create) using JSONPath/Groovy GPath and passed to a subsequent request (e.g., GET /resource/ {id}).
- ✓ Experience in manually verifying service contract adherence and testing distinct business capabilities across decoupled micro services.
- ✓ Proficient in using API testing tools (e.g., Postman, Swagger/OpenAPI, SoapUI) to execute, validate, and document various RESTful API requests (GET, POST, PUT, DELETE) for individual services.
- ✓ Proficient skills in backend testing using SQL/NoSQL queries to verify data consistency and integrity across the multiple, isolated databases used by different micro services (e.g., eventual consistency validation).
- ✓

Educational Profile: -
Bachelor of Technology (B. Tech – Computer Science) from West Bengal University, 2014 with 75%.

Employment History:

1. LTIMindtree – April 2021 till date
2. Indium Software (India) Pvt. Ltd (embibe client) – October 2017 to April 2021
3. Kaspon Networks Pvt. Ltd. – February 2017 to October 2017.
4. SrinSoft Technologies Pvt. Ltd. – March 2016 to November 2016
5. Manpower Services India Private Limited. (**Client HP**E) – March 2015 to November 2015.
